

## PV350

### Specifications

|                            |                              |
|----------------------------|------------------------------|
| Solar Cell:                | Monocrystalline              |
| Cell Efficiency:           | ≥23.4%                       |
| Current at Max Power(Imp): | 10A                          |
| Open Circuit Voltage(Voc): | 46.5V                        |
| Operating Temperature:     | (-10°C+65°C)                 |
| Weight:                    | 30.6 lbs                     |
| Dimensions:                | 35.6*24.1*2.5 inches(Folded) |
